Mira Page: Launch Plan, Weekly Routine & Skills to Learn

Oct 19, 2026 · @Phanitha Sree .A

You need about 3–4 weeks of one-time setup, then a repeating weekly routine of roughly 8–10 hours, while learning six core skills along the way.

One-time setup (weeks 1–4)

Do these once, in order, before you post regularly. Step 3 is the make-or-break step, so don't rush it.

- [ ] **1. Study the niche (days 1–4).** Follow 15–20 Indian fashion and budget-styling creators. Save 20 Reels that hooked you and note each one's hook, price point, format and length.
- [ ] **2. Create Mira (week 1–2).** Generate her face and look from the character bible. Make 20 test images in different outfits and poses; she must clearly be the same person in all of them.
- [ ] **3. Test the try-on workflow (week 2).** Put 3–5 real products from Myntra, Ajio or Amazon on Mira. Compare side by side with the product photos until colour, print and fit match.
- [ ] **4. Pick her voice (week 2).** Choose one AI voice with a natural Indian English accent and save the settings.
- [ ] **5. Make 3 practice videos (week 3).** Go through the full process: pick products, write the script, create visuals, add voiceover, edit. Don't post these.
- [ ] **6. Set up accounts (week 3).** Same handle on Instagram and YouTube, a professional or creator account, a profile picture of Mira, and a short bio saying she's an AI character.
- [ ] **7. Make 5–10 launch videos (week 4).** Have a buffer ready before posting your first one, so a busy work week doesn't stop you.
- [ ] **8. Start posting (end of week 4).** Begin the weekly routine below.
- [ ] **9. Join affiliate programs (after 2–4 weeks of posting).** Apply to Amazon Associates India and an Indian affiliate app covering Myntra, Ajio and Flipkart. Check each program's current requirements first.

Consistent work (every week after launch)

About 8–10 hours a week, mostly on weekends, so weekdays only need about 15 minutes a day.

When	Task	Time
Saturday morning	Research: trending styles, upcoming festivals and sales, new budget products	1–1.5 hr
Saturday afternoon	Pick 5 products and write 5 scripts from the content template	2 hr
Sunday	Create visuals, add voiceover, edit all 5 videos, write captions and hashtags	4–5 hr
Monday–Friday, 7–10 pm IST	Post one video and add the affiliate links	10 min a day
Monday–Friday	Reply to comments and DMs, answer questions about products	10–15 min a day
Sunday evening	Check the week's numbers: watch time, saves, shares, link clicks	30 min

Once a month (1–2 hours):

- Review which formats and price points did best, and make more of them.
- Plan next month's content around festivals, wedding season, monsoon or big sale days.
- Check affiliate earnings and drop products or stores that don't convert.
- Refresh Mira's reference images if her look starts drifting between posts.

If a week gets too busy, post 3 videos instead of 5, but never skip a whole week. Consistency matters more than volume.

Knowledge to gain

Learn these six skills in this order, each while you need it, not all before you start. Free YouTube tutorials and the platforms' own help pages cover all of them.

#	Skill	Why it matters	How to learn it	When
1	Consistent AI character images	Followers only bond with Mira if she looks the same every time	Tutorials on character reference and consistent characters in your chosen image tool	Week 1
2	AI virtual try-on	Real products must look accurate on Mira, or buyers stop trusting her	Tutorials on AI virtual try-on and outfit swapping; practice on 10+ products	Week 2
3	Short-video editing (CapCut)	Fast cuts, captions and transitions decide whether people keep watching	CapCut's beginner tutorials; copy the editing style of Reels you saved	Week 2–3
4	Hooks and scriptwriting	The first 2 seconds decide whether people scroll past	Study your saved Reels; write 3 hooks for every video and pick the best	Week 3, then ongoing
5	Fashion and budget-style basics	Mira's advice must be genuinely useful: colours, fabrics, fits, what suits different body types	Follow Indian stylists, read product reviews, compare fabric and fit details	Ongoing, 15 min a day
6	Affiliate marketing and analytics	This is how the page earns: links, commissions, and reading which videos drive clicks	Amazon Associates help pages, your affiliate app's guides, Instagram and YouTube analytics tutorials	Weeks 4–8

Later, once you have a few thousand followers, learn how brand collaborations work: pitching brands, pricing a post, and India's influencer disclosure rules (ASCI).
